

# Programming

---

## *Who runs the program daily?*

Parents, community members and often students volunteer their time to run the programs every school day. If a program is operating in a school, then the official site authority is the school principal.

## *Where are Student Nutrition Programs delivered?*

Most Student Nutrition Programs are delivered in schools. However, a small number are located in the wider community in community centres, faith centres, apartment buildings or wherever there are kitchen/preparation/storage facilities and willing community members

## *What is the difference between Breakfast and Morning Meal*

Both meals consist of three food groups. However, breakfast is served before school starts, whereas the morning meal is served after school begins but before 11:00 a.m.

Over three quarters of high school students who eat a nutritious morning meal on most days are on track to graduate.

## *Can all students access a Breakfast or Morning Meal in a participating school?*

Yes. All children have the opportunity to participate in any SNP offered at their school.
